www.moriskende.de

The "Morisca" was a Moorish dance. In the 15th century it spread from North Africa through southwestern Europe also to Germany. The Morisca dancers were conjurers, comedians and acrobats who came to us from the Moorish countries. They performed their artfully grotesque dances at market places but also at the royal court. In 1480 the sculptor Erasmus Grasser created 16 wood-carved dancers to honour them.
